CS 546 Project Proposal
I pledge my honor that I have abided by the Stevens Honor System.

Description

Our website will be called 'Rate My Drinks.' This website will allow people to post reviews about different drinks that they've tried and allow people to search for reviews based on the name of the drink, type of drink, etc.

Core Features

The user should be able to create and log into an account.

Users without an account should be able to view the different reviews.

Users with an account should be able to post reviews and comment on different reviews.

Users should be able to query for reviews based on certain criteria (stars, type of drink, name of drink, etc.).

Users should be able to delete reviews.

Extra Features

Time permitting, the user should be able to add a location of where they consumed the drink, and different users should be able to directly access a Google Maps link.

Time permitting, the website should have a trending page of the most popular drinks, according to how many times a drink's page has been clicked on.
